The South Carolina Department of Health and Environmental Control (SC DHEC), Bureau of Air Quality, has received a Conditional Major Operating Renewal Permit Application for this facility, and has drafted an operating permit that, if approved, will limit the facility's potential to emit to below Title V Major Source thresholds, therefore restricting it from Title V Major Source status as defined in SC DHEC Regulation 61-62.70 "Title V Operating Permit Program." The draft permit is subject to review under SC DHEC Regulation 61-62.1; Section II G "Conditional Major Source Permits." This permit will enable the facility to operate in compliance with State and Federal Air Quality Regulations. The draft permit has not yet been approved and is open to comment from the public and the United States Environmental Protection Agency (EPA). If approved, this draft permit will supersede the existing Conditional Major Operating Permit issued to this facility on September 11, 2001.

Interested persons may review the materials drafted and maintained by DHEC for this facility and submit written comments on the draft permit by February 8, 2007 to Timothy Fitzgerald at the above DHEC address. All comments received by February 8, 2007 will be considered when making a final decision regarding the draft permit.
